

Happy New Year 2015

The year 2014 has now gone into the annals of history, never to be remembered except for the memories we hold strong to. We thank God for memories that are sweet and even those we hold strong to that are humanly speaking sour. May His name be praised.

Now the pages of the New Year 2015 have started unfolding. What the rest of the pages contain is something for you and I to imagine. It is only the One who is Omnipotent, Omnipresent and Omniscience who holds the contents in His merciful and gracious hands. But note that He never holds any evil in His holy hands. That is why I trust and believe that the contents are rewarding if we only trust Him and submit our beings wholly unto Him.

Thank you all for the support you gave me personally, the support you gave my family in the form of prayers, and the expression of unqualified hospitality.

Those who prayed for the peace and activities at Bugema University, I would like to thank you on behalf of the administration, faculty and staff. I do appreciate your objective and genuine support.

This year, 2015 holds many dreams for the university. Some of the dreams we would like to realize include:

- (a) The construction of a Science Complex
- (b) The construction of School of Theology and Religious studies building
- (c) The expansion of our Library

Even though resources are limited, we do believe that He who has started a good work at Bugema University will certainly bring it to a completion. He owns all the resources in the world; and for sure He will perform His miracles again through His own agents who have good hearts for Bugema University and are always ready to help.

Once again, I would like to wish you all a very HAPPY NEW YEAR. As I wish you, I would also like to thank you all again-students, faculty, staff, well wishers, Council members and donors for your help, support and prayers.

I would like to end with a quotation by Lorna Arthur entitled, "God's Arms are Long" in the book Seeking Understanding

Sometimes you and I act as if
God was born handicapped,
With short arms and deaf ears,
But that is not the case; His arms
Are long enough to save
You, wherever you are, and His
Ears can pick up your faintest whisper

He will provide all our needs this year in the riches of His glory

Happy New Year

Prof. Patrick Manu
President
